SKILLS

PROGRAMMING

Over 5000 lines:
CoreJava • DSA • JavaScript
• TypeScript
Database:
MySQL

EDUCATION

SCALAR ACADEMY

Post Graduation Diploma
Mar 2022 |Java Developer

G.H.RAISONI COLLEGE

BE Computer Science
June 2022 | Maharashtra, Nagpur

COURSEWORK

GRADUATE

Advanced Mathematics
Software Engineering
Operating system
Data Structures and algorithm

UNDERGRADUATE

SQL
Operating Systems
Java
Functional Programming
Computer Graphics + Practicum

EXPERIENCE

DXC TECHNOLOGY | Anaylist II Software Engineer

June 2022 - Present | Bangalore

- Proficient in identifying and assessing vulnerabilities present in various software applications. This includes conducting thorough assessments, utilizing security tools and methodologies, and providing recommendations for remediation to enhance the overall security posture of the applications.
- Skilled in troubleshooting and resolving errors encountered while using applications. This involves diagnosing issues, analyzing logs and error messages, identifying root causes, and implementing effective solutions to rectify errors and improve application functionality.
- Experienced in developing and utilizing tools tailored for monitoring Software Defined Networking (SDN) schedules. This entails designing and implementing software solutions to track and manage SDN schedules, ensuring efficient operation and optimization of network resources.

PROJECT

SPLITWISE APPLICATION || Nov 2023 - Jan 2024

- Developed features and functionalities for the Splitwise application, a widely used expense sharing and bill splitting platform.
- Implemented backend functionalities using technologies like Node.js, Express.js, and MongoDB to ensure seamless data management and processing.
- Conducted thorough testing and debugging to identify and resolve software defects, ensuring the reliability and stability of the Splitwise application.participated in code reviews, providing constructive feedback and suggestions to optimize code quality, performance, and maintainability.
- Contributed to the continuous improvement of development processes and practices, adhering to agile methodologies and best practices in software engineering.
- Demonstrated strong problem-solving skills and adaptability in addressing challenges and meeting project deadlines within a dynamic and fast-paced development environment.

BOOKMYSHOW || Feb 2024 - Present

- Developed and maintained key features of the BookMyShow platform, a leading online ticketing and entertainment booking service used by millions of users.
- Collaborated with cross-functional teams including product managers, designers, and quality assurance engineers to deliver high-quality software solutions that meet user requirements and business objectives.
- Integrated secure payment gateways and third-party APIs (e.g., payment processors, event venues) to facilitate seamless transactions and enhance the booking experience for users.
- Participated in code reviews and provided constructive feedback to peers to maintain code quality, adherence to coding standards, and continuous improvement of development processes.
